Lina Eroian
Junior QA

——

Profile Summary
Curious and detail-oriented, I transitioned into QA driven by passion for product quality and attention to details - a field that inspires me with both professional challenges and personal growth. My journey of self-study and hands-on practice showed me that quality assurance is where I'd like to grow. I'm eager to deepen my skills, especially with a long-term goal of becoming a test automation engineer.

Skills
Agile/Scrum methodologies
Manual Testing (Web & Mobile), Localization Testing
Test cases & Checklists (TestRail)
Bug reporting and Tracking (JIRA)
Cross-browser/Cross-platform Testing
Regression/Smoke testing
API Testing (Postman), MySQL
DevTools, Charles Proxy, GIT, GitHub

Work Experience
The Mobile Doctors | Manual QA | (Part time) Jan 2024 – present
-Created detailed test cases and checklists based on product requirements and user stories;
-Logged clear bug reports in Jira and communicated with developer for clarifying and retesting;
- Performed functional, regression, smoke testing, load and performance testing;
- Verified API responses using Postman; performed basic SQL queries;
- Conducted cross-browser/platform testing to ensure consistent user experience across browsers and platforms;
- Worked independently without a QA team, fully owning the quality process from requirements analysis to release validation.

Education
Russian Presidential Academy of National Economy and Public Administration (RANEPA) | Master's degree in Economic Security |2012–2017| Graduated with honors. Middle score: 4,9/5.0
